

Amendments to the Specification

Please insert the following onto page 17, line 15:

Brief Description of Drawings

- Figure 1: illustrates an OCB display.
- Figure 2: illustrates birefringence wavelength dispersions.
- Figure 3: illustrates the on-axis color versus applied voltage.
- Figure 4: illustrates the variation of the on-axis contrast with the variation of the retardation relative to the retardation of the LC cell.
- Figure 5: illustrates the isocontrast plot calculated for a film combination.
